

## COOKIES AND LOCAL STORAGE POLICY

### Cookies Policy:

Pursuant to Law 34/2002, of 11 July, on Services of the Information Society and Electronic Commerce, you are hereby advised that this website uses Cookies to improve and optimise the user experience. Further detailed information about what "Cookies" are, what type of cookies are used on the website, how to change the cookies settings, and what happens if the cookies are disabled are specified below.

### What are Cookies?

A cookie is a small text file which is downloaded to your computer when accessing certain web pages. Cookies allow a website, among other things, to store and retrieve information about the browsing habits of a user or his/her computer and, depending on the information contained therein and the use of the terminal, and can be used to recognise the user.

### What types of cookies are used on this website?

- **Analytical cookies:** Are those cookies which are processed by us or by third parties, enabling us to quantify the number of users and thus carry out the statistical measurement and analysis of the use that users make of the offered service. To this end, we analyse your browsing habits on our website in order to improve the offer of products or services that we offer.
- **Advertising Cookies:** Are those cookies either managed by us or by third parties, which enable the management, as efficiently as possible, the offer of the advertising spaces that are included in a webpage, adapting the contents of the requested service or the use made of our website. To that end we can analyse your Web browsing habits and can show advertisements related to your navigation profile.

Cookie Name	Description / Purpose	Provider	Expiration
PHPSESSID	This cookie is used by encrypted language PHP to allow SESSION variables to be stored on the web server. These cookies are essential for the functioning of the website.	ibizagranhotel.com	Session
WPML	This allows us to identify the user's language so that we can display the website in the correct language. Cookies used: "_icl_current_language", "_icl_visitor_lang_js", "wpml_referer_url", "wpml_browser_redirect_test".	WPML	1 day
__utma	This cookie is used to identify unique visitors by assigning a unique visitor ID. It tracks the number of times you have visited this Site and your first and last visits.	Google Analytics	2 years
_utmc	This cookie is used to identify a web session and store session information. It helps calculate the length of a visit by collecting a time stamp from the exact moment they leave this Site.	Google Analytics	N/A

_utmz	This cookie is used to store campaign information. It tracks where the user came from, which search engine they used, which link they clicked on, which keywords they used, and the location from where it was accessed.	Google Analytics	6 months from the date it is set up
_ga	This cookie is from Google Analytics. It is used to collect information about how visitors use the website. These cookies collect information anonymously, including the number of users of the site, the most visited content, and so on.	Google Analytics	2 years

- **Third party cookies:** Provided by third parties.

Cookie Name	Description / Purpose	Provider	Expiration
APISID, HSID, LOGIN_INFO, PREF, SID, VISITOR_INFO1_LIVE WbVud.resume YSC Demographics dkv	These cookies belong to Youtube. When you watch Youtube content that is embedded on our site, Youtube may set up cookies that do not belong to ibizagranhotel.com. ### What happens if the Cookies are disabled?

Certain functionalities of the Services and areas of this website may not function properly if the cookies have been disabled.

### Is our Cookies Policy updated?

We may periodically update the Cookies Policy on our website, for this reason, it is recommended that you review this policy whenever you access our website in order to be properly advised as regards how and why cookies are used.

### How do I configure my Cookies settings?

By clicking on "I UNDERSTAND" and continuing on our website, you consent the use of Cookies under the conditions contained in this Cookies Policy. As a user, you have the possibility to exercise your right to block, eliminate and reject the use of Cookies, at any time, by modifying your browser options. For example,

- **Microsoft Edge:** Configuration > Advanced Configuration > Cookies.

See the [Microsoftsupport](#) or the browser help.

- **Mozilla Firefox:** Tools > Options > Privacy > History > Custom Configuration.

See the [Mozillasupport](#) or the browser help.

- **Google Chrome:** Settings > Show advanced options > Privacy > Content settings.

See the [Googlesupport](#) or the browser help.

- **Safari (Apple):** Preferences > Security.

See the [Applesupport](#) or the browser help.

- **Opera (Opera Software):** Configuration > Options > Advanced > Cookies

See the [Operasupport](#) or the browser help.

If you are using another browser, consult the cookies installation, use and blocking policy thereof. Nevertheless, using the [www.youronlinechoices.com](http://www.youronlinechoices.com) tool, you will find useful information and configure, supplier per supplier, your cookies preferences.

### Is information compiled only via Cookies?

There may be websites that use other types of storage similar to that of cookies but with additional capacity, such as other types of local data storage on the client's computer, for example:

- HTML5 LocalStorage and sessionStorage: Space that the website may use on the user's computer. Generally deleting the browsing history which may be deleted.
- The "Local Shared Objects" or "flash cookies" (Silverlight "isolated storage"): These are pieces of data that websites which use Adobe Flash may store on a user's computer. These are stored inside the Microsoft folder where the user profile is located. You have to enter the folder and delete. (For example: Vimeo videos). Flash serves to incorporate multimedia elements into a web page, and to that end, stores files in the user's computer.
- A web beacon or web bug serves to track a user's activity, inserting a mini-image which the user does not perceive. When browsing a website, loaded together with the page, and the server where the photo is downloaded, records the access times, or the number of times that the user has accessed the website.

These files are more intrusive than cookies, given that these files are more complicated to delete, store more information, and is a standalone application from the browser used. This type of storage is not used.
